

Focus Ratings R10 Systems Crib Sheet

Version 1.0

As well as the displayed systems, there is another one that applies to all race types (and all classes) – this is 3L2 – lay any third rated horse in races with 11 runners or more.

The naming of the systems is logical in the following manner...

1W1 means the top rated horse (the first number shows the ratings status) is a Win bet (the letter can be W, P or L – Win, Place or Lay) and the second number stands for the system number (there are 2 different systems for laying the third rated horse, for example.)

Thus, 2P1 means a Place selection for the second rated horses where there is one.

Please be aware that, for some race types, there may be more than 1 system.

class	race_type	race_type2	hc	Sys	Bet Type	Ratings Status
Class 3	All Weather	Handicap	Yes	1P1	Place Bet	Top Rated Horse
Class 3	All Weather	Handicap	Yes	2W1	Win Bet	Second Rated Horse (where there is one.)
Class 3	All Weather	Handicap	Yes	3L1	Lay Bet	Third Rated Horse (where there is one.)

Thus, for Class 3 All Weather Handicaps there are three different systems that apply...

- 1). A Place Bet on the top rated horse
- 2). A Win Bet on the second rated horse (where there is one) and
- 3). A Lay Bet for the third rated horse (where there is one.)

N.B. You should be aware that the Handicap element is a Race Type differentiator – thus, a Handicap Novice Hurdle is a different race type to a Non-Handicap Novice Hurdle. The same goes for the Race Class – a Class 2 Novice Hurdle (non-handicap) is a different race type to a Class 2 Novice Hurdle (handicap.)
